

## **Brief summary on measures taken by the Republic of Kazakhstan at state border crossing points**

There is no embargo on local and international transportation of goods by trucks in the Republic of Kazakhstan.

Meanwhile there are some limitations:

According to the resolution of the Government of the Republic of Kazakhstan dated 30 March 2020, twenty checkpoints temporarily closed from April 4, 2020 ten of which are with the Russian Federation, five with the Kyrgyz Republic, two with the Republic of Uzbekistan and three with People's Republic of China.

Therefore, 31 road checkpoints have been defined for transportation of goods to/from Kazakhstan for the time being.

22 of 31 mentioned road checkpoints are fixed for transit travel (14 - RF; 2 - KR, 3 - RU, 2 - PRC, 1- Turkmenistan).

Also, according to the decision of the Interagency Commission on Preventing the Occurrence and Spread of Coronavirus Infection on the Territory of the Republic of Kazakhstan dated 9 April 2020, some measures have been taken to prevent crossing of all categories of persons and vehicles, excluding timeframe between 10:00 and 19.00 for transit freight vehicles, as well as diplomatic personnel and staff of dispatch service through Aisha-bibi and Karasu BCPs.

The passage of freight vehicles through the state border is carried out in accordance with the following procedure:

- Drivers involved in international freight transport are admitted only with foreign passports (regardless of citizenship);

- If a driver visited most risky countries for the last 15 days, crossing of a truck through the border is possible only subject to sanitary and epidemiological measures carried by the staff of Sanitary Quarantine Service.
